

Time	Content	
08:30	Event registration	
09:30	Opening <ul style="list-style-type: none"> • NUS Provost's opening speech By Professor TAN Eng Chye • Speech By Loh Tuck Wai, Consulate-General of Singapore at Shanghai • Speech By Chinese official 	
09:45	Keynote opening By IE Singapore	
10:00	1) Licensing signing between Kosmode-NUS-NUSRI;	
	2) Tech exploration MOU signing with Positec Group;	
	3) The launch of NUSRI-BioClub Startup Incubator;	
	4) Licensing signing between Prof Yang Hongshun and Arowana edible oil	
10:10	Introduction of NUS international technology transfer model By Sean P. Flanigan(BA,JD,RTTP)	
10:20	Tea Break	
10:35	NUS Biotech, medical device technology introduction By NUS ILO (8 technologies)	
10:45	Healthcare Driven Community By Taggle Pte Ltd	
10:55	NUS Bioengineering technology introduction (7 technologies) <ul style="list-style-type: none"> • Line scan focal modulation microscopy By Prof. Chen Nanguang • New Upconversion Fluorescent Nanoparticles for Imaging and Detection By Prof. Yi-Chin Toh • Rehabilitation and Assistive Robotics By Prof. Yu Haoyong • New Upconversion Fluorescent Nanoparticles for Imaging and Detection By Prof. Zhang Yong • ESOGLOVE – A Soft Robotic Glove for Robot-Assisted Hand Therapy By Prof. Yeow Chen Hua Raye • 用于组织修复和再生的丝蛋白材料 By Prof. James Goh • 用于细胞蛋白质组分析的微流控集成系统 By Prof. Chia-Hung Chen 	
11:35	High throughput drug screening platform for peripheral neuropathies By SINAPSE Prof. Yang In Hong	
11:50	Lunch, Networking	Innov Alley Projects: 1 Big data service in financial sector 2 Future learning–mobile education system 3 One-stop innov-tech lab for primary school 4 Mobile phone game :House of cards 5 Kugoo Smart home 6 New type of multi-functional 3D printers 7 Step FPGA Comprehensive teaching platform 8 SAAS Wisdom clinical research platform VR experience session 9 Smart energy management system 10 Panorama solar electric
14:00	Talk: How Bosch Captures Local Opportunities together with Global Technology Partners By Crystal Zhang, Director, New Business Development, Bosch China	
14:15	Talk: Smart Manufacturing of Fortune Global 500 By Qin Cai, Flex Wuzhong	
14:30	Talk : Industry 4.0 and smart manufacturing upgrading plan By KIT, China Research Institute	
14:45	CeleX: A Revolutionary Smart Image Sensor for Machine Vision By Hillhouse	
14:55	Hands free head-mounted intercom & intelligent Window cleaning robot By Groupplus International Pte Ltd	
15:05	Panorama technology and future trends By NUSRI interactive multimedia center	
15:15	VR in movie, gaming, animation and big data visualization - perspectives from North America By Side Effects Asia Pacific Pte Ltd	
15:25	The application of Super infiltrates ceramic membrane By Ultra Power Technologies Pte Ltd	
15:35	Tea Break	
15:45	Commercialization of food research into consumer health food products By Kosmode Pte Ltd	
15:55	Prevent microbial degradation of the beverage's ingredients while preserving their nutrients By YGC Group (S) Pte Ltd	
15:55	Talk : UK, Euro innovation technology sharing By Isis Innovation	
16:05	Lucky draw	

16:15	Talk : Issues of international technology transfer in China By China Sinda Intellectual Property Pte Ltd	cars, and city intelligent transportation platform VR experience session 15:00-16:00
16:30	Journey to excellent organization By HIMS Management Consultants LLP	
16:45	Networking	
17:30	Dinner(By invite only)	

8th June 2016 Water Related Technology Session

Location: Raffles Conference Room 107

Time	Content
08:30	Event registration
09:30	Speech by relevant department
09:40	Talk : Innovative Research for Sustainable Development – An integrated multidisciplinary approach By (NERI) Professor Ong Choon Nam
10:00	NUS water related technology introduction By NUS ILO (9 technologies)
10:15	Water monitoring technology and device By In-Situ Monitoring Asia Pte Ltd
10:25	Talk : Importance of water pollution monitoring and treatment By Professor Ted Way Shao-Chih
10:45	Tea Break
10:55	Talk: Promoting international technology transfer and commercialization in China by Nanjing International Water Hub By Sembcorp Industries Ltd
11:05	Material separation and enrichment, water treatment and reuse By FHMembrane Technologies Pte Ltd
11:15	Ultra-low temperature multi-effect distillation adsorption desalination technology By Medad Technologies Pte Ltd
11:25	The latest application of treatment in lake river by Nano technology of gas bubbles By Bionano Technologies Pte Ltd
11:35	Introduction of sewage treatment in rural areas and plate-type ceramic membrane By Pioneer Environment Technologies Pte Ltd
11:50	Lunch, Networking
13:00	Company Tour

8th June 2016 New Energy and Environment Technology Session

Location: Enterprise space , Level 1

Time	Content
08:30	Event registration
09:30	Opening speech By SIP Committee for Economic Development
09:40	Introduction of High efficiency and energy saving energy technology platform& ECA alliance By ECA
10:30	Tea Break
10:40	Waste management in megacities for sustainability and energy recovery/National University of Singapore By Mr Li , Department of Chemical and Biomolecular Engineering,NUS
10:50	Talk : Technology trend of Solar Energy & technology sharing By (SERIS) Dr. LIN Fen "Cell doctor" PERC technology adoption and consultancy 5 bus-bar glass-glass module development
11:05	Talk : Solar industry and market trend of Solar Energy By CanadianSolar
11:20	Scooter Battery Reinvented By GCoreLab Technologies Pte Ltd
11:30	Portable Hydrogen generator By ChemoPower Technologies Pte Ltd

11:40	Indoor formaldehyde photocatalytic purification technology By NUSRI energy and environment interface engineering laboratory
11:50	Lunch, Networking
13:00	Company Tour
